Neel Gali

Software Engineer

neelgali7@gmail.com | +1(475)-291-1455 | Austin, TX

Professional Experience

Senior Software Engineer *Jul 2025 – Present*

Epik Solutions | Public Safety Product Development

- Architected and developed critical **.NET Core** microservices for public safety data processing, implementing 'design patterns' to improve system responsiveness by 25%.
- Designed scalable **AWS Lambda** functions and **EC2** deployments using **Terraform** for 'infrastructure as code', significantly reducing operational overhead by 20%.
- Implemented robust **CI/CD pipelines** with **GitLab CI** for 'automated testing' and deployment, optimizing 'code quality' and accelerating release cycles by 30%.
- Optimized 'asynchronous' **C#** code and database queries in **PostgreSQL** for a high-volume platform, decreasing data retrieval latency by 40%.
- Mentored junior engineers on **object-oriented design** principles and 'best practices' for 'code quality', fostering technical growth and boosting team productivity by 15%.
- Led the integration of secure third-party 'RESTful' **APIs** using **ASP.NET Core** architecture, expanding product capabilities by 5 new features.
- Conducted performance tuning on 'asynchronous' and 'multi-threaded' **.NET Core** applications for 'cloud-hosted solutions', achieving a 1.5x throughput increase.

Software Engineer *Jul 2024 – Jun 2025*

Samay Systems LLC | Enterprise SaaS Platform

- Developed new features for an enterprise **.NET Core** SaaS platform, adhering to 'design patterns' and enhancing user experience for over 5000 clients.
- Built **AWS**-hosted backend services using **C#**, integrating with **S3** and **SNS** for efficient data flow, reducing processing errors by 18%.
- Implemented 'RESTful' **APIs** with **ASP.NET Core** to support 'frontend' development in **Angular**, improving data exchange efficiency by 22%.
- Managed and optimized **Microsoft SQL Server** and **DynamoDB** databases for 'scalability', ensuring data integrity and query performance for 10M records daily.
- Contributed to robust **CI/CD pipelines** using **Azure DevOps** for automated builds and deployments, significantly reducing manual effort by 25%.
- Wrote comprehensive unit and integration tests using **NUnit** for **C#** applications, ensuring 'code quality' and increasing code coverage to over 85%.
- Refactored legacy **.NET Framework** components to 'cloud-hosted' **.NET Core**, improving application 'scalability' and performance by 15%.
- Troubleshot and resolved production issues across **AWS EC2** instances and **Lambda** functions, maintaining 'cloud-hosted solutions' with 99.9% system uptime.

Software Engineer *Jul 2020 – Aug 2022*

Zemoso Technologies | Custom Software Development

- Developed robust **C#** applications using **.NET Core** for custom client solutions, ensuring 'code quality' and enhancing functionality across 3 enterprise projects.
- Designed and implemented 'RESTful' **APIs** in **ASP.NET Core**, facilitating seamless data integration with third-party systems for client solutions.
- Managed and optimized **PostgreSQL** and **SQL Server** databases, ensuring reliable data storage and 'scalability' for critical applications.
- Collaborated with cross-functional teams using **Git** and **JIRA** within an 'Agile' framework, delivering new features 10% ahead of schedule.
- Implemented 'unit tests' and conducted 'code reviews' using **Visual Studio** to uphold 'code quality' standards, reducing production bugs by 20%.
- Maintained existing **.NET** applications, resolving critical issues and enhancing performance for client-specific business operations, improving stability by 15%.

Skills

Languages: C#, python, javascript, typescript, SQL,
Frameworks & Tools: .NET Core, ASP.NET Core, Angular, Visual Studio, Git, JIRA, NUnit, GitLab CI, Azure DevOps
Cloud & Infra: AWS, Lambda, EC2, S3, SNS, Terraform
Databases & Search: PostgreSQL, Microsoft SQL Server, DynamoDB
Concepts: CI/CD, Agile, RESTful APIs, Object-Oriented Design, Design Patterns, Infrastructure as Code, Code Quality, Scalability, Asynchronous Programming, Multi-threaded Programming, Cloud-hosted Solutions

Education

Master's in Computer Science, Oklahoma State University, Stillwater
Bachelor's in Computer Science, JNTU Hyderabad, India
