Professional Experience

Senior Software Engineer *Jul 2025 – Present*

Epik Solutions | Generative AI Data Migration Platform

- Designed and built core components of a **generative AI** orchestration platform using **Java** and **Spring Boot**, enabling automated **code generation** and schema evolution.
- Implemented high-performance **data migration** tools leveraging **Kafka** and **Debezium** for real-time **CDC** from diverse relational databases efficiently.
- Developed scalable **backend systems** for data synchronization and transformation, utilizing **Kubernetes** for deployment, supporting 500k concurrent migration streams daily.
- Optimized underlying **data structures** and **algorithms** in **Java** to enhance processing efficiency, reducing latency by 35% across critical data pipelines.
- Integrated **OpenAI API** and **LangChain** to power AI-driven **schema modeling** and code generation features, improving accuracy by 20% consistently.
- Collaborated with AI researchers and product management to define and implement cutting-edge products, enhancing platform capabilities and user engagement by 15%.
- Engineered robust data systems for migrating from **Postgres** and **MySQL** to **MongoDB**, servicing over 100 enterprise clients seamlessly.

Software Engineer *Jul 2022 – Jun 2025*

Samay Systems LLC | Enterprise SaaS Data Platform

- Developed high-performance **backend systems** using **Java** and **Spring Boot** for an enterprise SaaS data platform, serving 10,000+ active users daily.
- Architected **distributed systems** for **event-driven architecture**, integrating **Kafka** to manage 20M data points per hour for real-time analytics delivery.
- Designed and implemented **RESTful APIs** with **Spring Security** for secure data access and management, improving system security posture by 15%.
- Managed and optimized **Postgres** and **MySQL relational data models**, enhancing data retrieval performance by 30% for crucial reporting functionalities.
- Implemented complex ETL processes using **Python** scripts on **AWS EC2**, reducing manual data preparation efforts by 40% weekly across departments.
- Contributed to client-side development for internal dashboards using **React** and **JavaScript**, improving developer efficiency and data visualization by 20%.
- Utilized **Docker** and **Git** for version control and containerization, streamlining deployment workflows and achieving 99.9% uptime for critical core services.
- Developed internal tools integrating **OpenAI API** for natural language processing on customer feedback, improving sentiment analysis accuracy by 18%.

Software Engineer *Jul 2020 – Aug 2022*

Zemoso Technologies | B2B E-commerce Platform

- Implemented critical **backend systems** for a B2B e-commerce platform using **Java** and **Spring Framework**, supporting 500 concurrent users effectively.
- Developed and maintained **RESTful APIs** for product catalog and order management, improving data consistency by 10% across various system modules.
- Designed and optimized **MySQL** database schemas and queries, reducing average query response times by 20% for high-traffic application endpoints.
- Integrated third-party payment gateways leveraging **Maven** and **Spring Boot**, enabling secure transactions and increasing platform revenue by 15%.
- Contributed to **CI/CD** pipeline setup using **Jenkins** for automated testing and deployment processes, decreasing software release cycles by 25%.

Skills

Languages: Java, Python, JavaScript
Frameworks & Tools: OpenAI API, LangChain, Spring Boot, Kafka, Debezium, React, Spring Framework, Spring Security, Maven, Docker, Git, Jenkins
Cloud & Infra: Kubernetes, AWS EC2, Postgres, MySQL, MongoDB
Concepts: Backend Systems, Distributed Systems, Streaming Data Platforms, Change Data Capture (CDC), Relational Data Modeling, Algorithms, Data Structures, RESTful APIs, Microservices, CI/CD, Event-Driven Architecture, Systems Design, Schema Modeling, Generative AI, Code Generation

Education

Master's in Computer Science, Oklahoma State University, Stillwater
Bachelor's in Computer Science, JNTU Hyderabad, India
