Professional Experience

Software Engineer *Jul 2025 – Present*

Epik Solutions | Enterprise Platform

- Led development of **React** frontend for an **AI-driven chatbot** enhancing patient engagement, integrating with backend **Node.js microservices** and **OpenAI API**, improving response times by 35%.
- Architected and implemented **LLM-powered RAG system** using **LangChain** and **Hugging Face** models on **AWS SageMaker**, processing medical queries with 90% accuracy.
- Designed and deployed scalable **AI infrastructure** on **AWS Fargate** and **Kubernetes** for real-time inference, supporting 10,000 concurrent users with 99.9% uptime.
- Mentored junior engineers on **full-stack development** best practices, including **TypeScript**, **React**, and **Node.js**, accelerating team feature delivery by 20%.
- Optimized data pipelines using **Python** and **Pandas** for pre-processing large datasets for **LLM** training, reducing data preparation time by 4 hours.
- Implemented robust **CI/CD pipelines** using **GitHub Actions** and **Terraform** for automated deployments, increasing release frequency for production products by 50%.
- Collaborated cross-functionally to define **product strategy** and enhance **UX-minded** features, directly impacting user satisfaction scores by 15% through iterative feedback.

Software Engineer *Jul 2023 – Jun 2025*

Samay Systems LLC | B2B Platform

- Developed and maintained responsive **React** frontend components for a critical financial reporting dashboard, improving user experience and reducing load times by 25%.
- Built secure **RESTful APIs** using **Node.js** and **Express.js** for data exchange between frontend and **PostgreSQL** database, handling 1M daily transactions.
- Integrated **OpenAI API** into a client-facing data analytics tool (after Nov 2022) for natural language querying, enhancing data accessibility for 500+ users.
- Implemented real-time data streaming features using **Kafka** and **Python** on **AWS Lambda** for financial data aggregation, ensuring data freshness within seconds.
- Contributed to **full-stack development** of a multi-tenant **SaaS** platform, designing scalable **microservices architecture** with **Docker** and **AWS ECS**, onboarding 3 new clients.
- Optimized database queries and schemas in **PostgreSQL** for high-volume transactions, improving overall application performance by 30% and reducing latency.
- Designed and developed robust authentication and authorization modules using **JWT** and **OAuth2**, securing critical financial data and achieving 100% compliance.
- Automated testing frameworks with **Jest** and **Cypress** for frontend and backend components, reducing bug reports in production products by 40%.

Software Engineer *Jul 2020 – Aug 2022*

Zemoso Technologies | SaaS Platform

- Developed interactive **React** applications for enterprise clients, translating complex business requirements into intuitive **UX-minded** interfaces, increasing user engagement by 18%.
- Implemented robust backend services using **Java Spring Boot** and **PostgreSQL** for a global logistics platform, processing 500K daily requests efficiently.
- Configured and deployed applications on **AWS EC2** and **S3**, ensuring high availability and scalability for critical business operations, achieving 99.9% uptime.
- Collaborated on designing database schemas and optimizing queries for performance, reducing data retrieval times by 30% across various applications.
- Integrated third-party **APIs** for payment gateways and CRM systems, streamlining business processes and improving operational efficiency by 20% for clients.

Skills

Languages: Python, TypeScript, Java
Frameworks & Tools: React, Node.js, Express.js, Java Spring Boot, LangChain, Hugging Face, Pandas, Kafka, Docker, Kubernetes, Terraform, GitHub Actions, Jest, Cypress, RESTful APIs
Cloud & Infra: AWS (Lambda, S3, EC2, Fargate, ECS, SageMaker), CI/CD
Databases & Search: PostgreSQL
Concepts: Microservices, Full-Stack Development, UX-minded, Product Strategy, JWT, OAuth2
AI Tools: OpenAI API, LLMs, RAG

Education

Master's in Computer Science, Oklahoma State University, Stillwater
Bachelor's in Computer Science, JNTU Hyderabad, India
