RAKESH CHOWDARY POLINA

rpolina@okstate.edu | https://www.linkedin.com/in/rakesh-chowdary-polina | 405-894-3989

PROFILE

Experienced Software Engineer with a proven track record in developing scalable microservices, implementing robust facial recognition pipelines, and delivering cloud-native solutions. Skilled in Python, Java, Spring Boot, Flask, React.js, and AWS, with expertise in containerization, CI/CD, and Agile methodologies. Adept at optimizing performance, enhancing user engagement, and driving operational efficiency in production environments.

EDUCATION

Master of Science in Computer Science **May 2024**
Oklahoma State University, Stillwater, OK **CGPA: 3.909/4**

SKILLS

Languages:	Java, JavaScript, Python, SQL, C, C++, HTML, CSS, Swift
Frameworks:	React JS, Angular JS, Spring boot, Node JS, Hibernate, Spring MVC, React Native
Databases:	MySQL, MongoDB, NoSQL, PostgreSQL, Cassandra
Web Technologies:	RESTful API, Spring JDBC, JPA, OAuth 2, jQuery, JSP, JMS, RabbitMQ
Web Services:	REST, SOAP
Tools/Platforms:	Docker, Git, JIRA, Jenkins, Postman, Ansible, Kubernetes, Apache Kafka, Terraform, Swagger
AWS Cloud Services:	EC2, S3, EKS, RDS, ELB, Cloud Watch, CloudFront
Build Tools:	Maven, Gradle

WORK EXPERIENCE

Research Data Analyst, Oklahoma State University **May 2023 – May 2024**

- Engineered and implemented a robust facial recognition pipeline, performing both quantitative and qualitative analysis on image data with Python and InsightFace, to achieve a precision rate of 93.6%
- Implemented DBSCAN clustering and rigorously verified data accuracy across 182,000+ images, enhancing archive reliability and insight precision.
- Designed an intuitive UI for the labeling tool using Flask and React.js, streamlining user engagement and annotations.
- Designed and maintained database structures using SQL, enhancing user interaction management and feedback data integrity, ensuring operational excellence.

Software Engineer, Ericsson, India **July 2019 – July 2022**

- Transitioned monolithic architecture to microservices using Java and Spring Boot. Integrated Apache Kafka for asynchronous communication, improving system scalability by 50%. Enhanced operational efficiency by 20% through service decomposition and asynchronous patterns. Documented architecture and APIs for team onboarding.
- Conducted requirement analysis and developed technical specifications for APIs. Reduced downtime by 30% by implementing Spring Security and Spring Data for secure transaction management. Designed relational schemas and optimized SQL queries for seamless integration with relational databases.
- Built robust APIs using Spring Boot, adhering to industry standards. Utilized Spring WebFlux for reactive APIs, reducing response time by 40%. Incorporated Spring MVC for interactive web applications, improving responsiveness and scalability. Developed middle-tier applications for efficient request handling.
- Utilized Swagger for API documentation, reducing developer onboarding time by 40%. Improved endpoint reliability and test coverage with Postman. Used Hibernate for streamlined database interactions and data integrity.
- Developed and optimized Oracle PL/SQL packages, procedures, triggers, and functions to manage complex workflows. Executed SQL queries and refined schemas to meet enterprise requirements.
- Built responsive user interfaces with ReactJS, enhancing engagement. Used Tableau and IBM Cognos Analytics for data visualization, enabling actionable insights. Leveraged reusable React components to align with enterprise standards.
- Implemented Docker and Kubernetes for containerization, reducing deployment time by 50%. Managed Kubernetes deployments with Helm and automated infrastructure on AWS using S3 and EC2 for scalability and resilience.
- Streamlined CI/CD pipelines with Jenkins, reducing time-to-market by 40%. Automated testing and deployment integrated with Git for version control. Collaborated using agile workflows, including code reviews and sprint retrospectives.
- Applied AGILE methodologies, including bi-weekly sprints and daily stand-ups, to track progress. Collaborated with cross-functional teams to ensure alignment with goals.
- Worked with WordPress for web content management, maintaining documentation for custom themes and plugins to align with enterprise strategies.
