Professional Experience

Senior Software Engineer *Jul 2025 – Present*

Epik Solutions | AI Developer Platform & Agentic Orchestration

- Designed and implemented scalable **Go** microservices for the core **AI** developer platform, supporting **LLM** and **Agentic** application development. This enhanced system capacity by 30%.
- Developed and maintained robust **REST APIs** and an **SDK** using **Python** and **FastAPI**, facilitating seamless integration for over 50 enterprise developer teams.
- Engineered comprehensive **MLops** monitoring solutions with **Grafana** and **Prometheus** for **ML services** in **sandbox environments**, improving issue detection by 40%.
- Led development of new features for **Agentic** application orchestration using **LangGraph** and **CrewAI**, reducing developer integration time by 25%.
- Championed developer experience initiatives by refining **API design** and **developer tooling**, leading to a 20% increase in positive feedback scores.
- Optimized **LLM** inference pipelines on **AWS ECS** using **Kubernetes**, achieving a 15% reduction in operational costs while maintaining performance.
- Streamlined **CI/CD** pipelines for **AI developer products** using **GitLab CI** and **Docker**, accelerating deployment frequency by 35% across all projects.

Software Engineer *Jul 2022 – Jun 2025*

Samay Systems LLC | Enterprise SaaS Platform & Data Integration

- Designed and implemented high-performance **Python REST APIs** using **Django** and **PostgreSQL**, handling 1M daily requests for core enterprise features.
- Developed scalable data ingestion pipelines with **AWS Lambda** and **S3** for processing large datasets, improving data availability for analytics by 25%.
- Deployed and managed critical services on **AWS EC2** and **RDS** via **Terraform**, ensuring 99.9% uptime for the production environment.
- Integrated **OpenAI API** into a new service module using **Python**, enabling natural language understanding for customer support queries, reducing resolution time by 10%.
- Contributed to the design of a resilient **microservices architecture** using **Docker** and **Kubernetes**, improving system fault tolerance by 20%.
- Explored and prototyped an **Agentic** application using **LangChain** for automated data extraction, demonstrating potential efficiency gains of 12%.
- Implemented comprehensive unit and integration testing with **Pytest** for backend services, reducing critical production bugs by 30%.
- Optimized database queries and caching strategies with **Redis** for **PostgreSQL**, decreasing API response times by 20% during peak loads.

Software Engineer *Jul 2020 – Aug 2022*

Zemoso Technologies | Mobile & Web Application Development

- Developed and maintained **Java Spring Boot** microservices for a web application, serving over 100K active users with 99.9% availability.
- Designed and implemented secure **REST APIs** for mobile and web clients using **Spring Security**, ensuring data integrity and access control.
- Managed and optimized **MySQL** databases, including schema design and query tuning, leading to a 15% improvement in data retrieval speeds.
- Deployed and monitored applications on **AWS EC2** instances using **Bash scripting**, ensuring reliable operation and automated scaling.
- Contributed to front-end development using **JavaScript** and **Angular**, implementing new features that improved user interface responsiveness by 10%.
- Assisted in setting up basic **CI/CD** pipelines with **Jenkins** for automated build and deployment processes, reducing manual effort by 20%.

Skills

Languages: Python, Go, JavaScript, Java
Frameworks & Tools: FastAPI, Django, React, Docker, Kubernetes, CI/CD, Terraform, Grafana, Prometheus, Pytest, Spring Boot, Spring Security, Angular, Jenkins, Bash Scripting
Cloud & Infra: AWS S3, AWS Lambda, AWS EC2, AWS ECS, AWS RDS
Databases: PostgreSQL, MySQL, Redis
AI Tools: OpenAI API, LangChain, LangGraph, CrewAI

Education

Master's in Computer Science, Oklahoma State University, Stillwater
Bachelor's in Computer Science, JNTU Hyderabad, India
