Neel Gali

neelgali7@gmail.com

Skills

Programming Languages: Java, Ruby, **Python, R, SQL,** Bash
Databases: MySQL, PostgreSQL, MS SQL Server, MongoDB, Hive, Presto, AWS RDS, AWS Redshift, Big Query
Cloud Technologies: AWS (S3, EC2, RDS, Lambda, Redshift, EKS, ECS, CloudWatch), Azure AD
Tools and Methodologies: **Tableau, Power BI, Hadoop, Hive, Apache Airflow, Apache Spark, Flask, Apache Kafka, MS Excel** Jupyter Notebook, Excel, Docker, Kubernetes, Jenkins, Git, Jira, GitHub, Selenium, Postman, Maven, TDD, SDLC, Agile, Scrum, Kanban
Other Libraries: NumPy, Pandas, Scikit-learn, TensorFlow, Matplotlib, Seaborn, P lotly, NLTK

Education

Master's in Computer Science, Oklahoma State University — May 2024
Bachelor's in Computer Science, JNTUH — June 2021

Experience

Volunteer Research Assistant, Oklahoma State University – Stillwater, OK — May 2024 – Jan 2025
- Working on developing chatbots using GenAI tools like **Langchain, Llama Index, OpenAI, Groq, CrewAI**

Graduate Teaching Assistant, Oklahoma State University – Stillwater, OK — Aug 2023 – May 2024
- Tutored students in the **Mobile Applications Development** course with the development of various **iOS apps using Swift**, offering hands-on support and evaluated student assignments, projects, and exams

IT Intern, Monarch Tractor – Livermore, CA — Jun 2023 – May 2024
- Implemented an **Automated employee management system for an Ag tech startup**, decreasing HR manual tasks by 40% and **saving roughly 150 hours per month** as an independent intern
- Integrated **Microsoft Excel, Power BI**, and Access with **Python** and **SQL** to consolidate and analyze **500+ employee records** from various databases into **dashboards using Tableau that provided real-time insights**
- Managed data storing and processing using **Big Data** tools such as **Hadoop, HDFS , Hive** and **Spark**
- Streamlined **data exchange** across UKG, JumpCloud, and Azure AD APIs for **user management, device provisioning, user group administration, licensing, and cron job execution** using **Python scripts**
- Employed serverless AWS services like **Lambda, S3 and CloudWatch** for serverless computing, data storage, real-time logging and monitoring

Data Analyst, ZeMoSo Technologies – Hyderabad, India — Jul 2021 – Aug 2022
- Implemented machine learning model including **Decision Trees and Logistic Regression** to **predict revenue** from returning customers to help the market team take appropriate promotion strategy using Python
- Wrote complex **Ad-hoc MySQL queries** involving **correlated subqueries**, **window functions** and common table expressions to track **user activity metrics** such as **retention rate** and daily active users. Optimized existing queries to run faster on large dataset
- Designed and maintained MySQL databases and created pipelines using **user-defined functions** and **stored procedures** for daily reporting tasks
- Developed **dashboards in Tableau** and presented data to **track KPIs and product performance** using data from various sources such as MS Excel, AWS S3, AWSRDS, AWS Redshift, JSON and XML
- Designed metrics for **A/B testing**, creating dashboards in Tableau to monitor test processes, analyzing test results, interpreting and giving recommendations to stakeholder
- Developed **Python scripts** to automate **data validation** and **data cleaning processes** such as deduplicating and checking data consistency using Pandas and **Apache Airflow**
- Analyzed large scale user log data and generated features for classification models using **SparkSQL in Spark**

Related Coursework and certifications

Tableau certiification, [OSU] — Apr 2023
- Completed a tableau certification course as a part of the curriculum
