# Neel Gali

neelgali7@gmail.com

## Skills

**Programming Languages**: Java, Ruby, Python, C#, C++, SQL
**Operating Systems**: Linux, Unix, Windows, macOS
**Databases**: MySQL, MongoDB, PostgreSQL, Oracle
**Web Technologies**: HTML, CSS, JavaScript, jQuery, XML, AJAX, JSON, Bootstrap, RESTful API, Redux
**Frameworks**: Spring Boot, React.js, Node.js, Hibernate, Express.js, Spring Beans, Spring Security, Angular, .NET Core, ASP.NET Core, Django, Vue.js, Next.js, jQuery
**Cloud Technologies**: AWS (S3, EC2, RDS, Lambda, Redshift, EKS, ECS, CloudWatch), Azure AD
**Tools and Methodologies**: Docker, Kubernetes, Jenkins, Groovy, Splunk, Grafana, Dynatrace, Kafka, RabbitMQ, Git, Jira, GitHub, Selenium, Postman, Maven, TDD, SDLC, Agile, Scrum, Kanban

## Experience

**Software Developer,** Oklahoma State University – Stillwater, OK Aug 2023 – May 2024

- Developed and maintained web applications using React, leading to a 20% reduction in page load times and increased organic traffic within the first quarter
- Enhanced HTML/CSS for faster page loads and implemented advanced JavaScript for improved user engagement through real-time updates and dynamic content in compliance with user requirements
- Developed dynamic content using JavaScript, employing ES6+ features to write clean and efficient code, implement event handling, form validation, and AJAX requests to provide a seamless user experience
- Built interactive user interfaces with ReactJS, developing reusable components and managing application state using React hooks and context API, integrating third-party libraries and APIs to extend functionality
- Designed responsive and visually appealing styles using CSS frameworks like Bootstrap, utilizing CSS Grid and Flexbox for advanced layout techniques to ensure consistency across various devices and screen sizes
- Adhered to Agile (SCRUM) methodologies, engaged in code reviews, daily stand-ups, retrospective meetings, and ensuring TDD through automated testing frameworks like Enzyme and Jest

**Software Developer Intern,** Monarch Tractor – Livermore, CA Jun 2023 – Aug 2023

- Implemented an automated employee management system for an Ag tech startup, decreasing HR manual tasks by 40% and saving roughly 150 hours per month as an independent intern
- Integrated Microsoft Excel, Power BI, and Access with Python and SQL to consolidate and analyze 500+ employee records from various databases into a centralized dashboard that provided real-time insights
- Streamlined data exchange across UKG, JumpCloud, and Azure AD APIs for user management, device provisioning, user group administration, licensing, and cron job execution using Python scripts
- Employed serverless AWS services like Lambda for serverless computing, S3 for efficient data storage and retrieval, and CloudWatch for real-time logging and monitoring along with Splunk, Grafana, Dynatrace

**Full Stack Developer,** ZeMoSo Technologies – Hyderabad, India Jul 2019 – Aug 2022

- Designed UI components in React, collaborating with cross-functional teams in a biotech startup to achieve a 20% increase in user base growth
- Enhanced user interface elements by designing and integrating new reusable React components into a custom React library and replacing legacy implementations to drive a 10% increase in design consistency
- Developed over 10 efficient and reusable React components, leveraging hooks, state management, and component lifecycle methods to enhance application performance and maintainability
- Developed semantic and accessible HTML structures, ensuring the use of proper HTML elements to enhance SEO and accessibility, that improved search engine rankings
- Implemented responsive layouts and designs using CSS frameworks like Bootstrap, ensuring consistent and visually appealing experiences across different screen sizes and devices
- Integrated front-end components with back-end APIs using RESTful services and AJAX, enabling seamless data exchange and ensuring a smooth flow of information between the client and server
- Implemented comprehensive test suites using tools like React Testing Library, Enzyme, Jest to validate both backend logic and frontend behavior improving code coverage by 90%

## Education

**Master's in Computer Science,** Oklahoma State University May 2024
