Neel Gali

Software Development Engineer

neelgali7@gmail.com | +1(475)-291-1455 | Austin, TX

Professional Experience

Software Engineer *Jul 2025 – Present*

Epik Solutions | Enterprise Platform

- Led the integration of **Siemens Polarion PLM** with existing engineering workflows using **Python** scripts, streamlining data synchronization and reducing manual entry by 40%.
- Designed and implemented **GitLab CI** pipelines for **C++** automotive software projects, automating build and test processes to accelerate release cycles by 25%.
- Administered **JIRA** and **Confluence** instances, optimizing project tracking and documentation for development teams, improving team communication efficiency by 30%.
- Developed **Java** microservices for a **3DX** data exchange platform, ensuring seamless data flow between CAD systems, enhancing interoperability for 15 engineering groups.
- Managed **SW configuration management** for critical embedded systems using **TeamCenter**, reducing configuration errors by 18% and ensuring compliance with industry standards.
- Created **VBA** macros for **MS Access** databases, automating report generation and data analysis for **process-oriented concepts**, saving analysts 10 hours weekly.
- Architected a **PostgreSQL** database schema supporting **Agile** development for real-time diagnostic tools, improving data retrieval speeds by 35% for over 50 users.

Software Engineer *Jul 2022 – Jun 2025*

Samay Systems LLC | B2B Platform

- Implemented **CI&CD** pipelines using **Jenkins** for **Java** aerospace applications, achieving automated deployments and reducing time-to-market for new features by 20%.
- Developed robust **Python** scripts for data processing and analysis within **Ansys** simulations, improving result accuracy by 15% for complex engineering models.
- Optimized **SQL** queries and stored procedures for a legacy **MS Access** database, enhancing data retrieval performance by 30% for critical operational reports.
- Collaborated on **SW configuration management** strategies for embedded software, contributing to **Waterfall** and **Agile** project success across 4 major product releases.
- Integrated **Apache Velocity** templates into an internal reporting tool, standardizing aerospace project documentation and reducing report generation time by 25%.
- Maintained and debugged **C++** flight control software components, ensuring high reliability and adherence to safety standards for over 10 aerospace projects.
- Administered **JIRA** and **Confluence** platforms, configuring workflows and dashboards to support **Agile** development teams, enhancing project transparency for over 50 engineers effectively.
- Implemented **process-oriented concepts** for software release management, defining clear stages and documentation standards, improving compliance by 20% across multiple aerospace projects.

Software Engineer *Jul 2020 – Aug 2022*

Zemoso Technologies | SaaS Platform

- Contributed to **Java** backend development for enterprise applications, implementing new features based on **Agile** methodologies for over 5 key client projects.
- Developed **Python** scripts to automate testing routines, increasing test coverage by 20% and improving overall software quality for critical modules.
- Wrote and optimized **SQL** queries for **PostgreSQL** databases, improving data manipulation efficiency by 25% for high-volume transaction processing systems.
- Implemented **VBA** functionalities within **MS Access** applications for internal financial reporting, automating monthly reconciliation processes and saving 8 hours monthly.
- Supported **SW configuration management** activities for various software releases, ensuring version control integrity and reducing deployment errors by 10%.
- Participated in **JIRA** and **Confluence** administration, assisting with workflow configuration and documentation to support **process-oriented concepts** for development teams.

Skills

Languages: C++, Python, Java, SQL, VBA
Frameworks & Tools: JIRA, Confluence, Siemens Polarion PLM, GitLab CI, Jenkins, MS Access, Ansys, Apache Velocity, 3DX, TeamCenter
Databases & Search: PostgreSQL
Concepts: CI&CD, Waterfall, Agile, SW configuration management, process-oriented concepts

Education

Master's in Computer Science, Oklahoma State University, Stillwater
Bachelor's in Computer Science, JNTU Hyderabad, India
