Neel Gali

Technical Solutions Engineer - Entry Level

neelgali7@gmail.com | +1(475)-291-1455 | Austin, TX

Professional Experience

Senior Software Engineer *Jul 2025 – Present*

Epik Solutions | AI-Powered Enterprise Solutions

- Led development of an AI-enabled solution for optimizing supply chain logistics using **Python**, **FastAPI**, and **OpenAI API**, improving operational efficiency by 25%.
- Architected scalable microservices on **AWS Lambda** and **DynamoDB** using **Java** for customer data sources, supporting 10,000 concurrent users with 99.9% uptime.
- Implemented advanced **machine learning** models with **Scikit-learn** and **Pandas** to predict customer churn, reducing attrition rates by 18% through targeted interventions.
- Designed and maintained **CI/CD** pipelines using **GitHub Actions** for automated deployments across **Google Cloud** environments, decreasing deployment time by 40%.
- Developed comprehensive **technical documentation** and user guides for complex **API** integrations, facilitating seamless onboarding for over 50 enterprise partners.
- Optimized existing **cloud platforms** configurations on **AWS** and **Azure** using **Terraform**, reducing infrastructure costs by 15% annually.
- Contributed to **UI/UX** improvements for a key analytics dashboard using **React**, increasing user engagement and data interpretation speed by 30%.

Software Engineer *Jul 2022 – Jun 2025*

Samay Systems LLC | Custom Business Application Development

- Developed custom **Python** scripts for data transformation and **automation** of business workflows, reducing manual data entry errors by 90%.
- Built **REST APIs** using **Spring Boot** and **Java** for seamless third-party integrations, increasing system interoperability for 15+ external applications.
- Designed and implemented interactive **data visualization** dashboards using **Tableau** for executive reporting, providing critical insights for 50+ stakeholders.
- Managed and optimized **PostgreSQL** databases, including schema design and query tuning, improving data retrieval performance for key reports by 35%.
- Deployed containerized **Docker** applications to **AWS ECS** for enhanced scalability and reliability, supporting peak loads from 5,000 active users.
- Developed modules for an AI-enabled chatbot using **Python** and **OpenAI API** after Nov 2022, improving customer support response times by 50%.
- Contributed to building a data lake on **AWS S3** and engineered **ETL** pipelines using **Python** to process 100GB of daily customer data.
- Authored comprehensive **technical documentation** for new application features and system configurations, decreasing developer onboarding time by 25%.

Software Engineer *Jul 2020 – Aug 2022*

Zemoso Technologies | Enterprise Web Platform Development

- Developed and maintained core features of a large-scale enterprise web application using **Java** and **Spring Boot**, serving over 100,000 daily active users.
- Implemented secure **REST APIs** for client-side consumption, ensuring data integrity and enabling new functionalities for 15 internal business units.
- Utilized **JavaScript** and **React** to build responsive user interfaces, enhancing **UI/UX** and improving user satisfaction scores by 12%.
- Wrote complex **SQL** queries and stored procedures for data manipulation and reporting from **MySQL** databases, optimizing report generation by 20%.
- Participated in full software development lifecycle within a **Scrum** framework, contributing to sprint planning, backlog refinement, and daily stand-ups.
- Integrated third-party services and APIs into the platform, expanding functionality and data sources for various customer-facing modules by 30%.

Skills

Languages: Python, Java, SQL, JavaScript
Frameworks & Tools: Spring Boot, React, Docker, GitHub, Jira, Pandas, FastAPI, Scikit-learn, OpenAI API, LangChain, Tableau
Cloud & Infra: AWS, Google Cloud, Azure, Terraform, CI/CD, PostgreSQL, DynamoDB
Concepts: Agile, Scrum, REST APIs, Data Modeling, UI/UX, Technical Documentation, ETL, DevOps
AI Tools: Machine Learning, AI-enabled solutions, Generative AI

Education

Master's in Computer Science, Oklahoma State University, Stillwater
Bachelor's in Computer Science, JNTU Hyderabad, India
